October Meeting

This month's meeting will be held on October 16th (third Tuesday) at 7 PM at the Amateur Radio Club building next to the baseball field at Mathis Field airport.

The speaker will be Claude Hudspeth, a former Pan American pilot, who says he "will attempt to explain the use of Garmin's new (came out in May) Garmin Pilot app for iPads and iPhones, and the use of the GDL39 antenna which receives FAA weather and ADS-B traffic. The Garmin Pilot will probably become the most popular program for pilots, both amateurs and professionals".
